

True Colors of the Self (제각각색 프로젝트)

Dec 14 - Dec 28, 2024

H-flux Gallery is delighted to present the project "True Colors of the Self (제각각색 프로젝트)" from December 14 to December 28, 2024. This exhibition showcases the unique styles and revitalized creativity of 10 artists who have participated in our Creative Academy over the past six months.

H-flux Gallery is not merely an exhibition space but a platform for creative learning and discourse designed to support artists. As part of this mission, the Creative Academy was established as an exclusive program designed to foster the creative vision of its participants. Beyond theoretical instruction, the academy provides one to one mentoring, guiding artists as they refine their themes and concepts, tackle challenges in their creative process, and maximize their originality.

This exhibition celebrates the accomplishments of the Creative Academy while offering a glimpse of what these talented artists might accomplish in the future. Moving forward, H-flux Gallery is committed to furthering its educational initiatives, showcasing the fruits of these efforts in an annual December exhibition. Through this project, we hope to honor the growth of artists and inspire the continuance of their creative journeys.
